## **Interactive Data & DAKCS Software Enable Companies to Save Time and Cut Costs Associated with Finding Difficult to Locate Individuals**

*Partnership delivers Debt buyers, Collection Agencies and Creditors innovative tools and access needed to locate difficult to find Debtor Accounts*

ATLANTA, GA. – September 7, 2010 – Interactive Data, a leading provider of highly accurate right party data and contact solutions and DAKCS Software Systems, a leading developer and integrator for skip tracers and debt collectors announced today the signing of a partnering agreement. Under terms of the agreement, Interactive Data will provide its impressive suite of data sets to creditors and collection agencies via DAKCS gateway.

According to Lex Patterson, President of DAKCS Software Systems, “We are delighted to partner with Interactive Data. Our ongoing goal is to provide our customers with the best product and service offerings in the market today. We enhance their options by partnering with leading edge companies such as Interactive Data. We are confident that this new partnership will provide our customers with great new skip tracing tools that are both cost effective and efficient.

“The combination of the DAKCS platform and our comprehensive data sets offer skip tracers and debt collectors the most cost-effective opportunity to find who they are looking for” said John Schaeffer, President of Interactive Data. “What sold me on the DAKCS team is that they share the same extreme commitment to customer service that we do”.

DAKCS is a powerful collection system designed for the debt collection and recovery industry that boasts both a strong product and service portfolio. DAKCS combines powerful collections tools with next generation dialers and IVR as well as secure 24 hour client access, a comprehensive legal package and secure payment options.

Interactive Data has earned a strong reputation for its ability to innovate and create data sets to fit the needs of today’s dynamic challenges. Products such as “Cell Suppression” and “Relatives and Neighbors” are bleeding edge tools that when combined with Interactive Data’s comprehensive data sets, enables skip tracers to find who they are looking for with the strongest possible ROI.

Schaeffer added that the ongoing economic issues and unemployment scenario continued to create both opportunity and chaos in the collections world. “On one hand you have more business than anyone can handle, yet on the other side you have to have the best tools available to take advantage. It’s all about efficiency in the data and the tools an agency has access to.

There is a real cost associated with being wrong and I believe strongly that the Interactive Data/DAKCS Relationship.

***About Interactive Data***

*Interactive Data LLC (ID) is the industry leader in locating and identifying individuals that are typically difficult to find. Based in Atlanta GA, ID offers a variety of search products, including Social Security, Real Estate Listings, Death Index, and Bankruptcy listing searches, as well as Data Warehousing, Cell Suppression, FDCPA Scrubs and cost-efficient unmask-pricing for Directory Assistance. Leveraging more than a decade of collections industry experience, ID creates relevant, customer-focused searches that are both comprehensive and cost effective. Each of these products work seamlessly with IDs advanced online and batch products. For more information, please visit [www.id-info.com](http://www.id-info.com), or call (866)584-2295.*
